

Hello Brothers & Sisters of IUOE Local 612,

As time seems to stand still these days, a Dental Emergency does not! Unfortunately dental emergencies happen even during a pandemic and the word should get out to IUOE Local 612 union members and our communities that Sunrise Dental is open for emergencies, unlike most dental practices, so that you know where you can go.

Sunrise Dental partnering offices is offering ***FREE Emergency Palliative Dental Treatment**. Regardless of your benefits status or loss of job even those that have lost their dental benefits and have financial hardship will be taken care of at no charge.

- 50 NW-Sunrise Dental locations have agreed to open at least ONE DAY a week to take emergency patients and then be on call for emergencies that cannot wait.
- We provide Quality Dentistry and Use Quality Materials
- All locations are CDC compliant & offer a safe and clean environment; *we adhere to ADA Guidelines for COVID-19.*
- Our offices are preferred providers with most dental insurances.
- All offices are small union businesses and owned by practicing dentists, NOT corporate dentistry.

*Palliative treatment would constitute our best effort to get the patient out of pain/discomfort; procedures such as extraction, pulpotomy (the initial stage of root canal treatment), bite adjustment, incision, and drainage are among such procedures that the fees will be waived for those members without dental coverage whom cannot afford such dental care.

Please visit our website to contact the location nearest you: www.sunrisedental.com Check our attached list of locations. If you find the location nearest to you busy, please call: 1-877-770-3077 so we may accommodate you at another location.

If you have questions, I am at your service!
We are here for IUOE Local 612 members.
Be safe.

In Solidarity,

Mike
